# Focus Adventure Aviation ISOframe displays

*Adventure Aviation came to us in 2017 seeking to make an impression on the Irish aviation market. As overseas exhibitors rental best suited their needs with us organising every aspect of their event including display, furniture, staff, electrics & liasing with event oranisrs*

*Our rental package includes storage so in 2018 we were able to create a smaller display using their original panels thus saving them money It's all about maximising budget!!*

*Contrasting carpet can really set off your exhibition ara and help your displays stand out*

Since 2018 NCIRL have rented the with 55" screen on the 4m x 4m high central section to add to their own ISOframe Wave display

ensuring they stand out at Higher Options giving impact without the cost of purchasing or storage

Total stand width is 9m  
Side wall heights are 229cm  
Central 4m section is 3m high

*1 stand 1 person endless possibilities*

# ISOFRAME® WAVE

## SHAPE YOUR DISPLAY AS DESIRED

These are alternative ISOframe Wave layouts showing different shapes of a 6-section display wall.  
The world's first fully flexible display & exhibition system.

### GENERAL INFORMATION

- Standard width for all single sided modules are 80 cm (except Graphic wings).
- Standard heights for all modules are 227 cm (Midi) and 247 cm (Maxi). Towers 277 and 297 cm.
- All modules are for single sided graphics use if not otherwise indicated.
- All modules apart from the Wave Flexi-Link modules contain fixed horizontal beams.
- All modules include "Kickers & Hangers". Magnetic tape for the graphic panels are not included.
- A "Starter module" has 2 vertical posts/feet, an "Extension module" has 1 vertical post/foot.
- Each ISOframe wall should include 1 "Starter module" only and the desired number of "Extension modules"

The ISOframe exhibit modules presented here are easy to assemble. However, as a guideline we have divided the different modules and stand designs into three "assembly levels":

- LEVEL 1 - NOVICE**  
Basic exhibit modules. Easily self-built from assembly instructions.
- LEVEL 2 - INTERMEDIATE**  
More advanced exhibit modules. Prior assembly/product training recommended
- LEVEL 3 - ADVANCED**  
Custom designed stands and special solutions. Contact us!

### FLEXI-LINK MODULES 1

# ISOFRAME COMPACT

This ISOframe Exhibit Wall is ideal for more permanent set-ups in receptions, entrance halls, showrooms etc. It is sufficiently strong to accept multiple accessories such as LCD screens, iPad holders, leaflets holders etc. The backwall can be extended or reduced in size to suit individual sites and needs.

ISOframe incorporates our patented FASTclamp connector to connect the posts, beams and end sections of the system instantly, without tools.

A modular system with design and stability in focus!

# ALUMINIUM SLATWALL SYSTEM

The aluminium slatwall profiles are slotted into the regular ISOframe posts and fit all 800 mm wide modules. Each slatwall panel has 3 slots for holding one pair of shelf brackets. Add as many slatwall profiles on top of each other as desired and add corner trims accordingly. Attach a straight beam, item IS-800-BS, over and under the slatwall profiles to hold them in place. For stability reasons use slatwall panels together with "Table modules" and "Showcase modules" only.
